SKILLS

Programming Languages

- Javascript

Frontend Technologies

- HTML
- CSS
- React
- Redux

Backend Technologies

- Node JS
- Express JS

Database

- Mongo DB
- SQL

Relevant Skills

- Axios
- JSON
- REST API's
- ES6 Promise
- Async await
- JWT
- Mongoose
- Bcrypt Js
- Formik and Yup
- NodeMailer
- Fundamentals of Linux

Tools

- Visual Studio Code
- Postman
- Balsamiq
- GitHub

EDUCATION

Sri Venkateswara College of Engineering

Bachelor's of Technology
Electronics and Communication Engineering
2019 – 2023
CGPA: 8.5

CERTIFICATIONS

Certificate of internship on MERN Stack
Development at DCT Academy, Bangalore
(December 2023 - June 2024)

QUALIFICATION SUMMARY

- Extensive experience in building comprehensive, responsive web applications with token-based authentication.
- Proficient in using React Hooks for streamlined state management and efficient handling of side effects.
- Skilled in employing express for effective development of web applications APIs much easier.
- Expert in handling user authentication and authorization processes, ensuring secure access and data protection.

PROJECTS

Job Portal

- Offers a modern, user-friendly approach to jobs application and management, allowing users to conveniently find, apply for jobs that suit their qualifications and preferences.
- Provides an intuitive interface for browsing available jobs based on location, availability, and technology, ensuring a seamless and enjoyable user experience.
- Utilized **Node.js** and **Express.js** for **backend development** and **React.js** for the **frontend**, implementing end-to-end solutions with the JavaScript framework.
- Leveraged React hooks (**useState**, **useReducer**, **useContext**) for efficient state management and a responsive user interface, as well as integrated **Nodemailer** for sending notifications for the status of the application.

Expense App

- Expense App is a web application designed to help users organize and manage their finances effectively, offering a user-friendly interface for inputting expense details such as category, date, amount, and notes.
- Provides categorization and tracking options for expenses, enabling users to monitor spending across different areas and assess their financial progress.
- Supports **Create, Read, Update, and Delete (CRUD)** operations for expenses, giving users the flexibility to manage and modify their expense records as needed.
- Utilized React hooks (**useState**, **useReducer**, **useContext**) for efficient state management, providing a smooth and responsive user experience while handling expense data effectively.
