Summary

Highly motivated and skilled MERN Full Stack Developer with two year of experience in building and maintaining web applications. Proficient in MongoDB, PostgreSQL, PosExpress.js, React.js, and Node.js. Adept at collaborating with cross-functional teams and delivering high-quality software solutions. Experienced in deploying applications on platforms such as Heroku, Vercel, and Onrender. Strong problem-solving abilities and excellent communication skills.

Work Experience

Software Engineer (MERN + AI)

TableSprint Private Limited Technologies, Bangalore

08/2024 -Present

- Contributing to AI-driven product development aimed at building future-ready web and mobile applications.
- Developed and optimized features using React.js, Node.js, Express.js, and PostgreSQL.
- Collaborating with the AI team to integrate machine learning APIs.
- Enhanced user experience through intelligent UI/UX components and data-driven insights.
- Designed and implemented dynamic workflow management features to streamline business operations and improve automation.
- Deployed applications on AWS with a focus on scalability, performance, and security.

Workflow & Automation Responsibilites:

- Designed and implemented dynamic workflow automation engine to streamline complex business operations and reduce manual works.
- Built event-driven automation workflows with triggers, conditions, and multi-step actions to improve efficiency and reliability.
- Integrated AI-driven decision systems into workflows, enabling automated data validation, real-time processing, and intelligent routing of tasks.

MERN Full Stack Developer

Vilambi Solutions Private Limited, Hyderabad 07/2023

-07/2024

Client: E-commerce Project, Zobello Online Shopping

- Built and deployed a complete e-commerce web app using MERN stack with features like product catalog, shopping cart, authentication, and payments.
- Implemented JWT authentication, Stripe payment integration, and a responsive UI with React.js and Redux.
- Developed an admin panel for product and order management, with analytics and real-time updates.
- Deployed on Vercel and Onrender, integrated APIs for currency conversion and shipment tracking.

Doctor Appointment

- Created modules for patient registration, doctor scheduling, and appointment booking with role-based access.
 - Added features like email notifications, OTP verification, and calendar scheduling using react-calendar.
 - Developed an admin dashboard for hospital staff and implemented doctor reviews and search filtering.
-

Internship

I have successfully completed internship on MERN Full Stack Development in DCT Academy, Bangalore during Jan 2023 – July 2023.

In that internship, successfully built and deployed multiple full-stack web applications using the MERN stack (MongoDB, Express.js, React, and Node.js). Implemented features such as user authentication, real-time data updates, and RESTful APIs, enhancing user experience and application performance.

Skills

Programming: JavaScript, TypeScript

Database: MongoDB, PostgreSQL

Frontend Technologies: React JS, HTML, CSS, Redux, MUI, Next JS, Tailwind CSS

AI & Workflow Automation : Integration of AI API's, Workflow Orchestration

Version Control : Git, GitHub

Backend Technologies: Express JS, Node JS

Testing : Postman, Unit & API Testing

Design & Prototyping Tools : Balsamiq, Figma

Education

B.Tech. Electronics and Communication Engineering

Sri Venkateswara College Of Engineering ,Tirupati

06/2019-5/2023

Certificates

- Azure Fundamentals (AZ-900)
 - MERN Full Stack Developer, DCT
-

Achievements

Selected as a team for the first prize of our final year project-expo conducted in Sri Venkateswara College Of Engineering, Tirupati conducted during the year 2022-2023
